

Custom Print Wire / Ferrule Markers

Custom Printed Wire Markers are ideal for identification of electrical and instrumentation wiring within switchboards and control panels and are available in a range of sizes to accommodate basic or detailed wire numbering sequences.

Wire Markers – Standard Series (1.5mm thick)

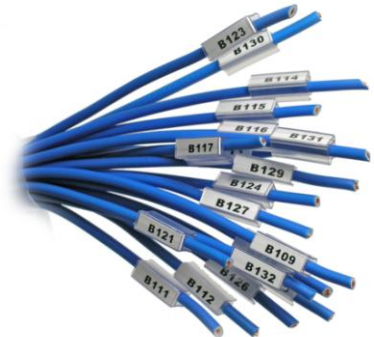

Standard thickness Wire Markers are supplied on trees or stems and are custom printed to suit your specific requirements. Drawing numbers, job reference, part numbers and even core sizes can be added to the label stems to simplify the referencing and installation process.

TPM 4x15mm wire markers can be supplied sleeved for your convenience.

| Part Number | Description | 3mm (8pt)Text # Characters |
|-------------|------------------------------------|----------------------------|
| MG-TPM4x15 | Printed 4 x15mm, white wire marker | 9 Characters |

- Colours:** White and Yellow.
Text: Black (standard), Blue, Green & Red
Sleeves: PM Clear PVC sleeves are available to suit wire core sizes from 0.25 to 240mm².

Wire Markers - Flat Series (0.5mm thick)

Unlike the standard thickness wire markers above, the TPMF Flat series Wire Markers range in size from 15mm to 40mm in length to suit basic or detailed core ID number sequences.

The MG-TPMF Flat series are custom printed with your label text, drawing numbers, job numbers and core sizes and can also be supplied sleeved for your convenience.
